

A SAFE FINGERPRINT SECURITY ACCESS SOLUTION

Most security systems available today can only offer limited security protection. Despite their claims, most systems are not foolproof. Their claimed security can easily be breached, and thus inadvertently defeat its sole purpose. Furthermore, hidden costs, such as installation, maintenance, and implementation costs are high. *ACTAtek*, however, offers a multitude of user-friendly features to maximize security levels at the lowest possible cost. Its **built in web server** technology eliminates the need for expensive and cumbersome dedicated PC's or specialized IT personnel, while providing you with **maximum flexibility** and **convenience**.

SAFEGUARD YOUR OFFICE WITHOUT GEOGRAPHIC RESTRICTIONS

- A 24/7 security management solution for both residential and business use.
- Specifically developed for various scenarios, from **residential, virtual or remote offices to multi-location offices-locally and worldwide**.
- Optimizes cost savings, maximizes revenue and enhances profitability and efficiency.
- Generates a high return on investment (ROI) from an operation standpoint.

Business Edition

Model Number	Description
ACTA-BIZ-FP	Embedded Web Server with Fingerprint Scanner (up to 500 users)
ACTA-BIZ-SC	Embedded Web Server with Smart Card Reader (up to 500 users)
ACTA-BIZ-FS	Embedded Web Server with Fingerprint Scanner & Card Reader (up to 500 users)

Corporate Edition

Model Number	Description
ACTA-CORP-FP	Embedded Web Server with Fingerprint Scanner. (up to 3,000 users)
ACTA-CORP-SC	Embedded Web Server with Smart Card Reader. (up to 3,000 users)
ACTA-CORP-FS	Embedded Web Server with Fingerprint Scanner & Card Reader (up to 3,000 users)

Both Models support:

Features	Fingerprint ONLY	Smart Card ONLY	Fingerprint + Smart Card
Three-Finger Enrollment	✓	x	✓
Built-in Smart Card Reader	x	✓	✓
Built-in Web and Database Server	✓	✓	✓
Exchange of Information Between Devices (Primary / Secondary)	✓	✓	✓
Static IP Address Assignment	✓	✓	✓
Dynamic IP Address Assignment	✓	✓	✓
Support existing DHCP Server	✓	✓	✓
Non- Volatile Memory	32 MB	32 MB	32 MB
Printer Support	USB/Serial/Network	USB/Serial/Network	USB/Serial/Network
Computers Supported	Apple Macintosh / Win 95/98/NT/XP Unix Machines	Apple Macintosh / Win 95/98/NT/XP Unix Machines	Apple Macintosh / Win 95/98/NT/XP Unix Machines
Database Interface Support	ODBC	ODBC	ODBC
Encryption	SSL	SSL	SSL
Multilingual Support	✓	✓	✓
Programming API	✓	✓	✓
Reporting	✓	✓	✓
Remote Control	✓	✓	✓
Replaceable Modules	CPU / Fingerprint / Contact & Contactless Smart Card / Keypad / CMOS Cam	CPU / Fingerprint / Contact & Contactless Smart Card / Keypad / CMOS Cam	CPU / Fingerprint / Contact & Contactless Smart Card / Keypad / CMOS Cam
Relay Support	✓	✓	✓
Weatherproof Casing (Except for contact card module)	✓	✓	✓

Comparison between Business and Corp. Editions:

Features	Business Edition	Corporate Edition
Maximum Users	500	3,000
Built-In Web Camera	No	OPTIONAL - CMOS Camera
Maximum Records stored in device	10,000	10,000
Directory Service Support	None	Yes-LDAP Active Directory (Jan 05')
Operation Mode	Primary / Secondary Mode	Cache Mode Server & Primary / Secondary Mode
Expansion	Serial / USB / Weigand / RS-232 / RS-485	PCMCIA Slot / Serial / USB / Weigand / RS-232 / RS-485
Network Interface	10/100BT Ethernet (Built-in) / Modem / GSM / GPRS	10/100BT Ethernet (Built-in) / optional Wi-Fi / Modem / GSM / GPRS
